
PROMPT PACK

FK / FIELD RESOURCE

Production Database Migration Prompt Pack

Prompts for designing, rehearsing, validating, and rolling back live database changes.

SUPABASE / CLOUDFLARE D1 / POSTGRESQL

FAISALKARKOH.COM

HOW TO USE THIS RESOURCE

Work in stages. Verify at every boundary.

This pack is a production companion, not one giant prompt. Choose the instruction that matches the work in front of you, add real context, and keep the resulting evidence with the change.

IMPORTANT CONSIDERATIONS

Compatibility design

Practical guidance for this stage.

USE WHEN	EXPECTED RESULT	REPLACE
This stage matches the current work.	A concrete, reviewable output.	`Repository-specific context`

PROMPT / COPY + PASTE

```
Compatibility design
```

Backfill

Practical guidance for this stage.

USE WHEN	EXPECTED RESULT	REPLACE
This stage matches the current work.	A concrete, reviewable output.	`Repository-specific context`

PROMPT / COPY + PASTE

```
Backfill
```

Rehearsal

Practical guidance for this stage.

USE WHEN	EXPECTED RESULT	REPLACE
This stage matches the current work.	A concrete, reviewable output.	`Repository-specific context`

PROMPT / COPY + PASTE

```
Rehearsal
```

Rollback

Practical guidance for this stage.

USE WHEN	EXPECTED RESULT	REPLACE
This stage matches the current work.	A concrete, reviewable output.	`Repository-specific context`

PROMPT / COPY + PASTE

```
Rollback
```

FIELD NOTES

Common mistakes, useful habits, hard limits.

PRACTICAL TIPS

WHEN NOT TO USE THIS

Build better with AI.

Practical notes, tools, and downloadable systems for building reliable AI products.
